Bachelor of Technology - CSE   2021 - Present
Goel Institute of Technology and Management, Lucknow

Intermediate (Class XII), Science Stream   2019 - 2021
Pt. JNS Intermediate College, Renukoot, Sonebhadra

ACHIEVEMENTS

- 50+ apps on Play Store
- Flight Model – IIT Kanpur (2023)
- Grade A – Tally Championship (2021)

PROJECT

NextHire - AI Interview Bot
View on GitHub

React.js, Node.js, GeminiAPI, VapiAI API

Built a real-time interview simulator using AI to generate and evaluate technical interview questions. Integrated OpenAI, developed frontend UI, and deployed a working MVP.

VSS-visualization-searching-sorting
View on GitHub

React, Node

An interactive web app for visualizing searching & sorting algorithms, helping students and developers understand them easily.

Image Generator using DALL·E 3
View on GitHub

React.js, Node.js, DALL·E API

Developed a web app that generates images based on user prompts using the DALL·E 3 model. Implemented backend prompt handling, image download feature, and responsive frontend.

Vector Vista
View on GitHub

React JS

VectorVista is a modern web application that allows users to create beautiful logos and graphics with an intuitive interface. Built with React and powered by Vite, it offers a seamless experience for designing logos with various customization options.
